

Simple Rails

Approximately 50" x 66" (without borders)

3 - 1 yard pieces (1 focus fabric and 2 coordinating fabrics)

Non-directional fabric is recommended

1. From each 1 yard piece, cut six - 6" strips.
2. Sew together 6 identical strip sets with the focus fabric in the center and a coordinating fabric on each side.
3. Pick one of the coordinating fabrics and press all the seams in all six strip sets towards the same fabric.
4. Cut each strip set into two - 17" blocks so that you will have 12 identical rail fence blocks.
5. Now arrange your blocks by rotating the blocks as shown and piece them together.
6. You can add borders if you'd like but this makes a great simple quilt perfect for a charity quilt, picnic quilt or as a last minute gift.
7. Remember - It's all about the fabric!

Enjoy,
